

Here is an opportunity for local governmental officials, state agency personnel, watershed associations and others to learn about forming partnerships on projects designed to help WV meet the goals of its Watershed Implementation Plan (WIP) before such Best Management Practices are mandated.

Save the Date

A Conference Sponsored by the Warm Springs Watershed Association

WHEN: Friday, March 1 from 10:00-1:00 (lunch included to those who RSVP by February 26)

WHERE: the Morgan County Board of Education Headquarters (247 Harrison Avenue, Berkeley Springs)

WHAT: How watershed associations and other civic organizations can partner with local governments and state agencies on projects that make a real-world impact in terms of voluntary compliance with WV's Watershed Implementation Plan (WIP) goals.

SPEAKERS: The keynote address will be delivered by **Rich Batiuk**, Associate Director of Science for the US Environmental Protection Agency. Other speakers will be announced at a later date. A **panel** will share information on projects currently being undertaken to help Morgan County meet WV's WIP goals.

RSVP to Kate Lehman (goldfairy39@gmail.com) no later than February 26.
