

7.	What is the K20 level:								Virginia Soil Test Calibrations
	<b>Fertility Rating</b>	<b>K– lbs/ac</b>	<b>K - PPM</b>	<b>K2O – lbs/ac</b>	<b>Yes</b>		<b>No</b>	<b>Points</b>	(Gaps exist between the fertility ratings because of the conversion from elemental lbs/ac to the phosphate and potash forms. When converting from another lab into the phosphate and potash forms chose the closest Fertility Rating to the converted value.)
	L-	0-15	0-8	0-18				30	
	L	16-55	8-28	19-66				27	
	L+	56-75	28-38	68-90				24	
	M-	76-100	38-50	92-121				21	
	M	101-150	51-75	122-181				18	
	M+	151-175	76-88	182-211				15	
<b>Total Nutrient Management Ranking Score:</b>									
<b>Total General Ranking Score + Total Nutrient Management Ranking Score:</b>									

If CD is only paying for P2O5 or K2O individually, may omit question 6 or 7.
